According to our statutes, the association notably aims to:

- a/ Promote and develop the practice of catamaran in Switzerland for all generations and all catamarans ;
- b/ Standardize and simplify the system time offset for racing catamarans. To do this, the Association will implement international rules approved by the World Sailing and the rules approved by the SCHRS (Small Catamaran Handicap Rating System) ;
- c/ Establish a schedule of racing catamarans in Switzerland (the RACES championship) and neighboring countries.

RACES Members Statistics

2019/2020

Observations:

- There is a certain stagnation in membership around 100 members
- SC1/AM3 as well as F16 are seeing less renewal
- On the other hand Nacra 15 brings new members and activity across clubs and in coordinating with regional youth programs (ACVL)
- Some shared regattas with other classes like A Class and Flying Phantoms

Technical Report

Race Courses - Work has been done to establish the baseline for course recommendations, Notice of Race and Sailing instructions used during regattas organized as part of RACES National Championships.

SCHRS ratings – There have been some modifications in 2020. Yorick will also share some observations from discussion with M. Rouves who is responsible for the international Small Catamaran Rating System recognized by World Sailing:

- F18 class rules increases jib surface from 4.15m² to 4.3m². Remaining the reference boat at 1.000, all other classes will see their rating increase by 0.4% or more.
- No deck sweeper penalty, compensated by the longer mainsail luff. This avoids a split in some classes like F18.
- Only two versions of the Nacra F20 listed; F20 Carbon (.891, with C foils) and F20 FCS (.868, with L foils); either regular or deck sweeper mainsail can be used with both versions. Specifically for the Nacra F20 Carbon: the rake of C foils can be adjusted, rudders with/without elevators can be used, boat's min weight increases from 165 to 182 kg.
- A-Cat classic and Nacra 15 are underperforming ie race results are worse than suggested by the formula, possibly influenced by the weather conditions of 2019
Nacra 15 FCS seems to attract the best crews

Topaz 14 update

2019

- Average of 7 crews per regatta on the start line, up to 10 crews!
- In addition, it is important to note that the pairs came from multiple regions and were mixed for some.
- 1. Tanguy Talabardon and Théo Germiyanoglu ; 2. Gaël Tissot ; 3. Paul Lasry Robin and Sebastien Van Brouwershaven

2020

- 2020 Topaz 14 Regatta and the Open des Multicoques are cancelled.
- Grand Prix Alinghi and the Trophée des Rentes Genevoises are still on!
- Happy to announce the purchase of 4 Topaz 14 by the Club Nautique de Crans.
- The Topaz 14 is a solid foundation and prepares our young sailors for the future, the Nacra 15!
- Let's give way to a new year even more promising than the previous one and don't forget to pay your membership fee!

Nacra 20 update

2019

Excellent participation in the Swiss class championship at the International Criterium held at the VLM :

- Congratulations and thanks to the 10 crews present. Congratulations to the VLM for the event.
- The photo of the 10 Nacra 20 has been widely reused and rediffused: Morges is the Mecca of the Nacra 20, thanks Buzz!

Good participation in the World Championships during the Duc d'Albe (despite a late announcement).

Correct participation in the long-distance championship; unforgettable experience at the Bol d'Or Mirabaud.

Very low participation in the national championship organized by RACES.

- It is a pity that the Nacra 20 Morgiens did not all sail during the windy opening weekend organised by the VLM.
- Part of the fleet was immobilized following the Bol d'Or (note the excellent work of H2O to keep this period short).

Note for future organizations :

The presence of the Nacra 15 is essential to have a major event. Being present at Nacra 15 events allows to promote the Nacra 20 ... and to recruit the next helmsmen / crew members.

Nacra 20 update

NACRA 15 REPORT

2020 TRAINING & CLASS DEVELOPMENT INITIATIVES

Excellent start, but a complicated year indeed. Let's focus on club local activities + national & regional talents development SST and ACVL programs as far as COVID19 situation would allow. Stay connected and keep up with the news!

- **6 national and 6 regional talents** selected and supported.
- **19 days Winter trainings (La Grand-Motte & Barcelona):** successfully attended by 16 juniors of 5 clubs!
- **Nacra 15 ACVL group created** to coordinate grass rooting and regional talents integrated training & development programs.
- **NACRA 15 camps and training sessions:**
 - March, April, May and June activities cancelled. Alternative interactive training sessions have been organised during contention time (with ACVL and CNR).
 - July onwards camps - if confirmed - will be organised in Switzerland according to guidelines.
- **Nacra 15 to Nacra 17 junior/youth path:** kicked off with SST led workshop on May 8th.
- **Nacra 15 class rankings criteria recommendation** for National Challenge and IN15CA non open class events will be developed, circulated and proposed for approval next 2020 AG in Nyon (September 18th).
- **Key topics to tackle for the future:**
 1. How to improve the mixed crews development and attract girls (22% only) to sail Nacra 15?
 2. How to expand beyond Region 1 and develop new fleets?
 3. How to maximise integration with IN15CA and IN17CA?

2020 Class activities planning (conditioned to COVID 19 evolution):

Nacra F20 'EVO' n'existe plus

Les coques, le gréement, les appendices et l'accastillage doivent être ceux fournis par le fabricant

La même configuration doit être utilisée pour la durée d'un événement (en particulier voiles, dérives, safrans)

Des coefficients SCHRS plus favorables aux Nacra 20 Carbon & FCS par rapport aux autres multicoques seront recalculés pour tenir compte du poids minimum plus élevé
